Continuation of 4(e). Other: The replied filed on 23SEP2008 is Non-Compliant for the following reason: While claims 1 and 10 have been indicated as currently amended the amendments to claims 1 and 10 have not been properly marked. Claims 1 and 10 contain strike-throughs to delete text of five characters or less. This is considered Non-Compliant under 37 CFR 1.121 (c)(2). The claims have not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which Applicant may become aware in the claims in order to bring the claims into compliance.

37 CFR 1.121 Manner of making amendments in applications. (c)(2) When claim text with markings is required. All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of "currently amended," and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of "currently amended," or "withdrawn" if also being amended, shall include markings. If a withdrawn claim is currently amended, its status in the claim listing may be identified as "withdrawn—currently amended."
